

ABIFormazione was founded in 1999, as a division of ABIServizi SpA (a private stock company, owned by the Italian Banking Association). The mission is: a) to be the leading company in the field of training and professional services dedicated to the Italian financial services industry; b) to excel in offering innovative and effective training services to the banking sector.

The ABIFormazione's specialised staff works with a wide network of financial professionals, advisors and professors. Our trainers have a remarkable experience in designing and managing credit and financial training initiatives. We provide special value by: focusing on the strategic issues impacting on the financial system as a whole; having exclusive institutional relations; offering certificated levels of quality and service; optimising the quality/price ratio.

We are committed to: monitoring the most widely used training practices in the Italian banking industry; offering counselling services and experimenting new methodologies; carrying out European projects on innovation in the fields of both training and certification; developing sound relationships with leading international institutions such as EBTN - European Banking & Financial Services Training Association Aisbl.

TOPICS

ABIFormazione provides training and knowledge management services covering all the most important topics for the Italian banking and financial industry such as:
